

Here are some free fashion and shopping tips our clients have found helpful...

- Buying classic pieces is worthwhile. It gives you a base from which you can mix and match with the latest fashions.
- Choose carefully when buying end-of-season clothes. They may be 80% off, but they may also be out of fashion next year.
- Buy a couple of expensive pieces that you love, like a handbag, shoes, and an overcoat. Adding these will help make your overall appearance look more expensive.
- Use your money wisely and be careful how much you spend on the latest trend. Stores like Winners or Target (if you're visiting the States) are great alternatives for those on a budget.
- On a budget and not sure what to buy? Ask the store to hold it for you and walk away. If you're still thinking about it after 24 hours, go back and get it.
- Not sure what looks good on you? Bring a friend or family member who will give you an objective opinion.
- For a well-put-together look, peruse magazines and try to copy the styles that catch your eye. Chances are they'll look great.
- Make sure your clothes fit. Clothes that are too big or too small just don't work - no matter what your body type is.
- Your closet should be full of clothes that make you feel good. If you don't love wearing it, you should get rid of it.
